## EXPERIENCE

**Texowave Private Limited** **May 2026 – July 2026**
*Full Stack Developer Intern* *Ahmedabad, India*

- Built a **full-stack AI-analyzed spreadsheet analytics platform** featuring a **17-step data transformation pipeline** and interactive **2D/3D visualizations** for large-scale dataset exploration.
- Integrated a **conversational AI assistant** enabling systematized **chart recommendations**, **outlier detection** and **correlation analysis**.
- Engineered **multi-sheet version diffing** and **background alert monitoring** with email triggers.

## PROJECTS

**SmartBite AI-Powered Meal Planner** | MERN Stack, Flask, Groq, PuLP, NLP **Sep 2025 – Nov 2025**

- Created an **Intelligent meal planning platform** delivering **personalized 7-day meal plans**, **nutrition analysis** and **health risk assessment** across **6+ integrated modules**, integrated **LLM-generated assistance, XGBoost-based calorie prediction** and **FAISS vector search**.
- Deployed a **3-tier microservices architecture** on **AWS** using **S3**, **EC2**, **CDN**, and **Elastic Load Balancer**, enabling scalable and highly available infrastructure supporting **100+ concurrent users** and **PuLP optimization** to deliver intelligent meal recommendations, **health scores** and **automated grocery lists**.

**FleetFlow** | PERN Stack, FastAPI, Machine Learning, Socket.io **Feb 2026 – Mar 2026**

- Built a Predictive fleet management platform with **real-time vehicle tracking**, **trip dispatch lifecycle management** and **9+ interactive analytics dashboards** supporting **PDF/CSV export**, secured through **JWT authentication** and **4-role RBAC** middleware.
- Designed an **AI-based microservice** using **8 machine learning models** trained on **92,000+ records** for **predictive maintenance**, **fuel anomaly detection** and **delivery delay forecasting**.

**ClipCrafters** | MERN Stack, FastAPI, RAG, FAISS, LangChain, NLP, Agentic AI **Mar 2026 – Apr 2026**

- Developed a **computerized video generation platform** using **384-dimensional embeddings** to automate **document-to-video conversion** across **4+ file formats**, reducing manual scripting effort by **90%**.
- Constructed a **multi-tier microservices architecture** integrating **AI text-to-speech**, **generative AI visual synthesis**, **mechanized video assembly**, **token-based authentication** and **CDN-transformed content delivery** for scalable end-to-end video generation.

## EDUCATION

**Nirma University, Ahmedabad** **Jul 2023 – Ongoing**
*B.Tech in Computer Science and Engineering* | **CGPA : 8.67** *Ahmedabad, Gujarat*

## SKILLS

**Languages:** Java, Python, C, SQL, JavaScript
**Web Dev:** MERN Stack, Flask, FastAPI, Socket.io
**AI/ML:** ML, DL, NLP, RL, Computer Vision, RAG Pipeline, LangChain
**Tools:** Git, Jupyter Notebook, IntelliJ IDEA, VS Code, Postman, GitHub, Apache Hadoop, Apache Spark
**Course Work:** OOP, OS, DBMS, CN, DSA, Cloud Computing, Software Engineering, Big Data System

## KEY ACHIEVEMENTS

- **Ingenium Hackathon 6.0 (2025) Finalist** - Reached the **finalist stage** in a national-level innovation and technology hackathon hosted at **Ahmedabad University.**
- **LeetCode Max Rating - 2172 (Guardian)** (1300+ Problems Solved) **(Highest Contest Rank - 193)**
- **CodeChef Max Rating - 1653 (3 Stars) (Highest Contest Rank - 364)**
- **Codeforces Max Rating - 1300 (Pupil)** (315+ Questions Solved)

## POSITION OF RESPONSIBILITY

- **Core Committee Member of Computer Society of India, Nirma University** (Organized **HackNUThon 6.0** and **Cubix 2025**, leading technical and coding events.)
- **Senior Editor of Cyber Security Club, Nirma University** (Managed cybersecurity **awareness initiatives**, content quality, **workshops** and technical learning activities.)
